E.B.E. RIDER

THIS AGREEMENT made and entered into by and between the CITY OF FORT WAYNE, hereinafter referred to as "Owner" and Geiger Excavating, Inc., hereinafter referred to as "Contractor",

WITNESSETH:

WHEREAS, Contractor is the apparent low bidder on construction project commonly referred to as the North Maumee Relief Sewer which project was bid under Resolution Number 541-1996; and,

WHEREAS, Contractor agrees that the goal for qualified Emerging Business Enterprises, hereinafter sometimes referred to as "E.B.E.'s" as subcontractors on this project is 10% of the contract amount; and,

WHEREAS, Owner has, pursuant to Executive Order 90-01, adopted a goal of at least 10% of the contract amount to Emerging Business Enterprises as defined under said Executive Order; and,

WHEREAS, said Executive Order states:

"Section 2, Paragraph C. Each contractor shall be required to make a good faith effort to subcontract 10% of the contract amount to Emerging Business Enterprises on each construction contract he/she is awarded. In the event a contractor is unable to subcontract 10% of the contract amount or secure the services of an Emerging Business Enterprise, he/she will be required to submit a completed Request for Waiver form on which he/she will provide a written description of the efforts taken to comply with the participation goals."

NOW, THEREFORE, in consideration of the foregoing and of the mutual

agreements hereinafter contained, the sufficiency of which consideration is hereby acknowledged, the parties hereto agree as follows:

1. Conditional Award. Subject to approval by the Common Council of the City of Fort Wayne as stipulated in the construction contract to which this Rider is attached, Owner awards the construction contract to the Contractor.
2. E.B.E. Retainage Requirements. If the contractor is in compliance with the provisions of the construction contract to which this Rider is attached, the Owner will make payments for such work performed and completed. However, in any such case, the Owner will retain ten (10%) percent of the total amount owing to insure satisfactory completion of the contract and to insure contractor's compliance with this E.B.E Rider. Upon final inspection and acceptance of the work, and determination by the Fort Wayne Board of Public Works that the contractor has made a good faith effort to subcontract 10 % of the contract amount to emerging business enterprises, the contractor will be paid in full.

In the event there is a determination that good faith compliance with this E.B.E. Rider has not occurred, appropriate reduction in the final payment pursuant to paragraph 6 of this E.B.E. Rider will be made.

If the contract is in excess of \$100,000 the contract will be subject to the Standard Board of Public Works escrow agreement. However, payments to the CONTRACTOR are not to exceed 90% of the total contract amount until the OWNER has verified that the CONTRACTOR has made good faith efforts to attain the E.B.E. goal stipulated in this E.B.E. Rider. Payment of the final 10% of the total

contract amount will be dependent upon good faith efforts to comply with this E.B.E. Rider, and subject to reduction in the event of non-compliance as provided in paragraph 6 of this E.B.E. Rider.

3. Request for Waiver. If at the time final payment application is made, contractor has not attained the 10% E.B.E. goal, contractor shall file with the final payment application a "Request for Waiver." Said Request for Waiver shall contain a written description of the efforts taken by Contractor to attain the 10% E.B.E. goal.
4. Determination of Waiver Requests. The Contract Compliance Department of the City of Fort Wayne shall examine all Requests for Waiver to determine if Contractor's efforts constitute good faith efforts to attain such goal and shall submit recommendations concerning said Requests for Waiver for the final determination of the Board of Public Works of the City of Fort Wayne.
5. Good Faith Per Se. In any case, a contractor shall be deemed to have made good faith efforts at compliance where E.B.E.'s have been subcontracted for every sub-contract for which there are qualified E.B.E.'s available.
6. Consequence of Non-Compliance. In the event the Board of Public Works approves a recommendation that contractor failed to make good faith efforts at compliance, the contract shall be reduced by the amount calculated as the difference between 10% and the percentage level met. Said amount shall be added to the City of Fort Wayne E.B.E. Bond Guarantee Fund and contractor agrees to accept the reduced amount as full payment under the terms of his/her contract.
7. Waiver Approved. In the event the Board of Public Works determines that a good faith effort to comply with this E.B.E. Rider has been made, the contract shall not

be reduced, and the balance owing to the contractor shall be paid in full.

IN WITNESS WHEREOF, the parties have executed this E.B.E. Rider this 29 day of

JANUARY 1997.

RE: *North Maumee Relief Sewer*

The purpose of this project is to alleviate the current problem of an overloaded interceptor sewer in Northeastern Fort Wayne. The North Maumee Interceptor was identified in the City's recently completed master plan as undersized for the flow it is currently receiving. The overloaded interceptor is of concern due to the fact that it surcharges during relatively common storm events, sometimes resulting in the discharge of raw sewage onto the ground. This project will focus on the portion of the interceptor sewer between Stellhorn Road on the north end and the siphon structure at the Bullerman Ditch south of Repton Drive on the south end.

The work covered by this contract is:

MAINLINE

Beginning at a proposed manhole on the existing 30" diameter North Maumee Interceptor, located 220± L.F. north of and 830± L.F. west of the southeast corner of the Northwest 1/4 Section No. 35 of St. Joe Township thence Northeasterly 300± L.F., thence east 530± L.F., thence north parallel to Long Road 4,960± L.F. to Trier Road, thence west 1,300± L.F. parallel to and on the south side of Trier to the intersection of Trier and Geoglein, thence north on the east side of Geoglein Road 2,560± L.F. terminating at a new structure on the existing North Maumee 1,370± L.F. east of and 120± L.F. south of the northwest corner of the Northwest 1/4 Section No. 26

Said sewer to be 9,650± L.F. of 24" and 36" diameter pipe with 31 manhole structures.

The advertised "Notice to Contractors" ran on August 30, 1996 and September 6, 1996 and bids were received on September 25, 1996.

The contract for Resolution 541-1996, North Maumee Relief Interceptor was awarded to Geiger Excavating, Inc. in the amount of \$2,297,861.00. This was \$4,019.00 below the engineers estimate (\$2,301,880.00). They were the lowest of four (4) bidders.
